# zBox firmware update instructions

V3.0.3 and earlier versions

This document applies to zBox firmware versions in v3.0.1 and earlier versions, including:  
v3.0.3 \ v3.0.2 \ v3.0.1 \ v3.0.0 \ v3.0.0-beta1 \ v3.0.0-beta2 \ v3.0.0-beta3 \ v3.0.0-beta4 \ v3.0.0-beta5 \ v3.0.0-beta6 \ v3.0.0- beta7 \ v3.0.0-beta8 \ v3.0.0-beta9 \ v2.0.1 \ v2.0.2 \ v2.1.0 and other versions.  
The upgrade methods and steps of V3.0.1 above version, please refer to another upgrade document:  
[zBox\\_firmware\\_upgrade-2.pdf](#)

The required tools for upgrade:

- 1, update package (such as update-v3.0.3.bin)
- 2, firmware package (such as firmware-v3.0.3.bin)
- 3, car side zBox apk installation package (such as zbox-A-release-v3.0.2.apk)
- 4, usb disk (Fat or Fat32 format)

Upgrade steps:

- 1, installs zBox apk installation package in the HU, and open the newly installed zBox application
- 2, remove the zBox from the HU usb.
- 3, put the update package and firmware package into the usb disk root directory.

- 4, insert the usb disk into the zBox usb port, and then insert the zBox into HU.
- 5, waiting for the HU show the upgrade interface, until the interface shows the upgrade is complete (about 5 minutes).

zBox is upgrading,Please do not pull out!

zBox update succeeded,Please re-insert!
