zBox firmware update instructions

V3.0.4 and later versions

This document applies to zBox firmware versions in v3.0.4 and later versions.

The upgrade methods and steps of V3.0.3 and earlier version, please refer to another upgrade document: [zBox_firmware_upgrade-1.pdf](#)

The required tools for upgrade:

- 1, firmware package (such as firmware-v3.0.4.bin)
- 2, car side zBox apk installation package (such as zbox-A-release-v3.0.2.apk)
- 3, usb disk (Fat or Fat32 format)

Upgrade steps:

- 1, installs zBox apk installation package in the HU, and open the newly installed zBox application
- 2, remove the zBox from the HU.
- 3, put the update package and firmware package into the usb disk root directory.

- 4, insert the usb disk into the zBox usb port, and then insert the zBox into .
- 5, waiting for the HU show the upgrade interface, until the interface shows the upgrade is complete.

zBox is upgrading,Please do not pull out!

zBox update succeeded,Please re-insert!
